generally prohibits recipients of Federal grants and cooperative agreements from using Federal (appropriated) funds for lobbying the Executive or Legislative Branches of the Federal Government in connection with a SPECIFIC grant or cooperative agreement. Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non- appropriated) funds. These requirements apply to grants and cooperative agreements EXCEEDING \$100,000 in total costs.

The undersigned (authorized official signing for the applicant organization) certifies, to the best of his or her knowledge and belief, that

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

5. Certification Regarding Environmental Tobacco Smoke

Public Law 103-227, also known as the Pro-Children Act of 1994 (Act), requires that smoking not be permitted in any portion of any indoor facility owned or leased or contracted for by an entity and used routinely or regularly for the provision of health, daycare, early childhood development services, education or library services to children under the age of 18, if the services are funded by Federal programs either directly or through State or local governments, by Federal grant, contract, loan, or loan guarantee. The law also applies to children's services that are provided in indoor facilities that are constructed, operated, or maintained with such Federal funds. The law does not apply to children's services provided in private residence, portions of facilities used for inpatient drug or alcohol treatment, service providers whose sole source of applicable Federal funds is Medicare or Medicaid, or facilities where WIC coupons are redeemed.

Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

The Public Health Services strongly encourages all grant recipients to provide a smoke-free workplace and promote the non-use of tobacco products. This is consistent with the PHS mission to protect and advance the physical and mental health of the American people.

Section 1352 also requires that each person who requests or receives a Federal grant or cooperative agreement must disclose lobbying undertaken with non-Federal (non- appropriated) funds. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to \$1,000 for each violation and/or the imposition of an administrative compliance order on the responsible entity.

By signing the certification, the undersigned certifies that the applicant organization will comply with the requirements of the Act and will not allow smoking within any portion of any indoor facility used for the provision of services for children as defined by the Act.

The applicant organization agrees that it will require that the language of this certification be included in any subawards which contain provisions for children's services and that all subrecipients shall certify accordingly.

Footnotes:

1 – ESTIMATES ONLY: The information presented above represents a 12-month period (July 1, 2020 – June 30, 2021). Note that SCDMH only budgets for a 12-month period based on the prevailing Appropriations Act for the applicable fiscal year.

2 – Note that as in previous Uniform Applications, estimates are based on Allocations and Revenues from SCDMH's Financial Reports. Allocations and Revenues approximate Total Expenditures and are more easily cross-referenced with SCDMH's program areas in its Financial Reports. This update includes consideration for Supplemental Funding.

3 – Note that Allocations, Revenues, Expenditures, and Supplemental Funding – as represented in SCDMH's Financial Reports – are based on forecasts for the applicable fiscal year with the expectation that as changes occur to the operations of SCDMH said changes may be reflected in changes to forecasts; therefore, amounts provided at the beginning of a fiscal year may not be the actual result presented at the end of the fiscal year. Consequently, this 12-month budget is subject to variations, especially based on the date of reporting.

4 – Related to the total amount reported for the Mental Health Block Grant (MHBG), due to having three (3) MHBGs active during any given state fiscal year for SCDMH - July 1 through June 30 - it is possible that the amount associated with MHBG expenditures may vary from the actual amount of a single year award.

5 – As per SAMHSA's instruction, SCDMH used the "FY2020 Mental Health Block Grant Final Allotments" file for purposes of completing the FY2020-2021 MHBG planned expenditures (Table 2) and related planned expenditures.

6 – Note that the information presented above is based upon a continuing resolution passed by the South Carolina General Assembly to fund State Government operations at FY2020 levels, until such time as an Appropriations Act is passed for FY2021, and the associated implications for the South Carolina Department of Mental Health.

Environmental Factors and Plan

21. State Planning/Advisory Council and Input on the Mental Health/Substance Abuse Block Grant Application- Required for MHBG

Narrative Question

Each state is required to establish and maintain a state Mental Health Planning/Advisory Council to carry out the statutory functions as described in 42 U.S. C. 300x-3 for adults with SMI and children with SED. To meet the needs of states that are integrating services supported by MHBG and SABG, SAMHSA is recommending that states expand their Mental Health Advisory Council to include substance misuse prevention, SUD treatment, and recovery representation, referred to here as an Advisory/Planning Council (PC). SAMHSA encourages states to expand their required Council's comprehensive approach by designing and implementing regularly scheduled collaborations with an existing substance misuse prevention, SUD treatment, and recovery advisory council to ensure that the council reviews issues and services for persons with, or at risk, for substance misuse and SUDs. To assist with implementing a PC, SAMHSA has created [Best Practices for State Behavioral Health Planning Councils: The Road to Planning Council Integration](https://www.samhsa.gov/sites/default/files/manual-planning-council-best-practices-2014.pdf).⁶⁹

Planning Councils are required by statute to review state plans and implementation reports; and submit any recommended modifications to the state. Planning councils monitor, review, and evaluate, not less than once each year, the allocation and adequacy of mental health services within the state. They also serve as an advocate for individuals with M/SUD problems. SAMHSA requests that any recommendations for modifications to the application or comments to the implementation report that were received from the Planning Council be submitted to SAMHSA, regardless of whether the state has accepted the recommendations. The documentation, preferably a letter signed by the Chair of the Planning Council, should state that the Planning Council reviewed the application and implementation report and should be transmitted as attachments by the state.

⁶⁹<https://www.samhsa.gov/sites/default/files/manual-planning-council-best-practices-2014.pdf>

Please consider the following items as a guide when preparing the description of the state's system:

1. How was the Council involved in the development and review of the state plan and report? Please attach supporting documentation (meeting minutes, letters of support, etc.) using the upload option at the bottom of this page.
 - a) What mechanism does the state use to plan and implement substance misuse prevention, SUD treatment and recovery services?

The South Carolina Department of Alcohol and Other Drug Abuse Services (DAODAS) is responsible for the mechanisms to plan and implement substance misuse prevention, SUD treatment, and recovery services related thereto.
 - b) Has the Council successfully integrated substance misuse prevention and treatment or co-occurring disorder issues, concerns, and activities into its work? ☒ Yes ☐ No
2. Is the membership representative of the service area population (e.g. ethnic, cultural, linguistic, rural, suburban, urban, older adults, families of young children)? ☒ Yes ☐ No
3. Please describe the duties and responsibilities of the Council, including how it gathers meaningful input from people in recovery, families, and other important stakeholders, and how it has advocated for individuals with SMI or SED.

Please see Letter from South Carolina Mental Health State Planning Council Chairperson.

Please see the attached South Carolina Mental Health State Planning Council Bylaws; specifically, Article II.

As a function of the South Carolina Mental Health State Planning Council's classification as a body politic, it publishes each year and places on the SCDMH website (<https://scdmh.net/public-information/my-calendar/>) Events Calendar. a Notification of Meeting Schedule (see attached) which provides an opportunity for the public to interface with the Planning Council and SCDMH.

Please indicate areas of technical assistance needed related to this section.

Not Applicable

Additionally, please complete the Advisory Council Members and Advisory Council Composition by Member Type forms.⁷⁰

⁷⁰There are strict state Council membership guidelines. States must demonstrate: (1) the involvement of people in recovery and their family members; (2) the ratio of parents of children with SED to other Council members is sufficient to provide adequate representation of that constituency in deliberations on the Council; and (3) no less than 50 percent of the members of the Council are individuals who are not state employees or providers of mental health services.

Dear Ms. Crocker:

With all the unrest and challenges we are facing as a country, we, the Council, are pleased with all the initiatives DMH has been taking.

DMH has social workers available for law enforcement mental health crises. DMH also established CCRI - Community Crisis Response and Intervention - services in all 46 counties in SC. There are RVs going into the community to help people receive services - instead of having to go into the mental health centers. This is especially helpful in rural areas. These mobile units are parked in random parking lots - like Family Dollar - so people see there are services available for anyone who needs them.

Telepsychiatry has become especially important during this pandemic. Patients can easily access services without the risks of being exposed to COVID-19, and throughout, the mental health stressors that are making everyday people suffer psychiatric distress during this pandemic, DMH has a helpline for all citizens of SC called SC Hopes. There are billboards and commercials ensuring citizens are aware of the needed help DMH is eager to offer. Plus, DMH has also established an Office of Suicide Prevention dedicated to zero suicide in South Carolina.

DMH is also creating a new position - the Chief Diversity and Inclusion Officer - who will ensure all patients and employees are treated with dignity and respect.

The leadership of SCDMH, to include the SC Mental Health Commission, State Director, and Senior Leadership, released a statement to the public condemning racism in our country.

It is a very powerful statement, so, we as a Council, are choosing to share the statement, in full, with this letter.

A Statement by the South Carolina Mental Health Commission and the State Director and Senior Management of the South Carolina Department of Mental Health
June 15, 2020

The leadership of the South Carolina Department of Mental Health writes to express our utter condemnation of and profound sadness about the senseless killing of George Floyd and to denounce all acts of racial violence and hate. We also write to express our support of all those calling for an end to racism and injustice.

The effect of racism and racial trauma on mental health is real. When we say "Black Lives Matter" we are not saying other lives do not. Rather, we are acknowledging that throughout our nation's history, people of color have experienced life in America differently from white Americans. Still today African Americans experience overt racism and bigotry far too often. They

shoulder a mental health burden that is greater simply by virtue of their skin color. Most black Americans live their lives with the added anxiety that they or their family members may be threatened or marginalized based only on their race.

The video of the murder of George Floyd while in police custody is traumatic to see for all of us, and the trauma is magnified by mass media. But it is a mistake to think that we all experience the horror of his death in the same way. For African Americans, the manner of George Floyd's death represents new trauma on top of past trauma. And we in mental health know that trauma is a major contributor to serious mental health conditions.

The events and discussions which have taken place following the death of George Floyd have made it abundantly clear that the leadership of SCDMH must continue to ensure equity and fairness in the manner in which the agency's services are delivered and the manner in which the agency's employees are valued. We commit to being part of the solution.

To that end, we have already discussed the hiring of a full-time chief diversity officer (CDO) whose sole job will be to assist the management of the Department's many different components in identifying and implementing needed change. As clinicians, we often tell patients that they are only as healthy as their secrets. We are following our own counsel, and we believe the CDO will bring fresh eyes to our agency to help us identify and eliminate instances of disparate treatment of staff and patients.

As the State's public mental health authority:

- SCDMH must be an agency which represents all citizens equally, those it serves and those it employs;
- SCDMH must continually ensure its environment is a safe environment for all, and which promotes open, honest and civil dialogue between people with differing perspectives; and
- SCDMH must be an agency that supports, encourages, and celebrates diversity.

Only when we achieve this level of equality can we reach our vision of being the mental health employer of choice and the mental health provider of choice in South Carolina. Only when we achieve this vision can we fully meet our mission of supporting the recovery of people living with mental illnesses. We cannot help patients live their best lives and be their best selves unless we as an agency strive continuously to do the same.

We also hope that this will be a time for all SCDMH employees, not just those in leadership roles, to reflect on actions they can take to demonstrate empathy, compassion, and kindness to those with whom they work, and in their communities.

As a Council, we have become more and more impressed with DMH's leadership in providing the most effective services possible.

As a Council, we monitor these services closely and ask for information to evaluate the effectiveness of services. We are invested in knowing as much as possible about quality of services being provided to the citizens of our state. We have reviewed the state budget and the specific services being offered.

As a Council, we encourage ALL members, especially individuals in recovery, to speak up as dedicated advocates. As Chair, and person who lives with severe mental illness myself, I'm pleased to see others, just like me, dedicated to asking the hard questions of DMH leadership and giving much needed feedback about the services we all receive from this Agency.

Due to the pandemic, our last two meetings have been via conference call. Members are committed not only to attending in-person meetings, but are participating in conference calls. Always, members ask question after question of the State Director and Deputy Directors.

At our July meeting, we were given an inspiring presentation by the Patient Affairs Coordinator for DMH. Her role is to advocate, with senior leadership, for people with mental illness. She gives presentations, does research to evaluate services and establishes advisory councils.

At the July meeting, she shared her recovery story, and all who heard her were moved by her passion to be a beacon of hope - not just to people with mental illness - but to all the senior management of DMH, reminding them that they are not looking at "numbers" but actual people.

As a Council, we are pleased by DMH's efforts to provide excellent services to the people of our state. We support the Block Grant application and are grateful for SAMHSA funding. DMH makes excellent use of Federal funding and all other resources they have and work to secure.

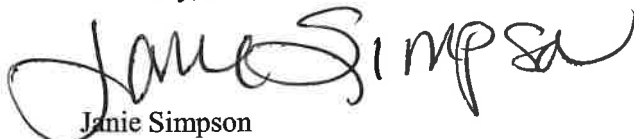

We, as a Council, applaud DMH's commitment to providing the best services possible and we are grateful for our role in supporting and advocating for innovations and demand for quality.

We have an excellent partnership with DMH. There is NO question our voices are heard and valued.

We truly believe that all members of our Council, DMH employees and patients receiving services are teamed together, to ensure the best recovery outcomes for people with mental illness.

As a Council, we stand together, advocating for the best services possible. We are committed to continually monitoring, reviewing and evaluating how DMH uses their funding to support the recovery of individuals with mental illness.

Sincerely, -
