ASIST

ASIST (Applied Suicide Intervention Skills Training) is a two-day interactive workshop in suicide first aid. ASIST teaches participants to recognize when someone may have thoughts of suicide and work with them to create a plan that will support their immediate safety. This workshop will increase your willingness, confidence and capacity to provide suicide first aid. Although ASIST is widely used by healthcare providers, participants don't need any formal training to attend the workshop. Anyone 18 or older can learn and use the ASIST model. This workshop contains content that may be upsetting for some people, especially those who have lost a loved one to suicide.
